

Microsoft Office Email Binding - Online Activation Guide

Installation

1. Uninstall any existing Microsoft Office versions from your computer (recommended).
 2. Restart your computer.
 3. Download and install Microsoft Office using the setup package provided with your purchase or the official Microsoft installer.
 4. Once installation is complete, open any Office application such as Word, Excel, or PowerPoint.
 5. When prompted, enter your product key and click **Activate**.
-

Online Activation

Step 1 – Redeem Your Product Key

1. Open your web browser and visit:
2. <https://setup.office.com>
3. Sign in with your Microsoft account.
 - If you do not have a Microsoft account, create one and sign in.
4. Enter your 25-character product key.
5. Follow the on-screen instructions to redeem the license to your Microsoft account.

Step 2 – Activate Office

1. After redeeming the product key, launch any Office application.
 2. Sign in using the same Microsoft account used during the redemption process.
 3. Office will automatically detect the license associated with your account.
 4. Activation will complete automatically once the license is verified online.
-

Verify Activation Status

To confirm that Office is activated:

1. Open Word, Excel, or any Office application.
2. Select **File** → **Account**.
3. Under **Product Information**, verify that Office displays:
 - **Product Activated**, or

- **Microsoft Office Licensed Product**

If activation is successful, no further action is required.

Troubleshooting

Invalid Product Key

If you receive an invalid product key error:

- Ensure the key was entered correctly.
- Verify that the product key matches the version of Office being installed.
- Make sure the key has not already been redeemed on another Microsoft account.

Activation Issues

If Office does not activate automatically:

1. Confirm that your computer is connected to the internet.
2. Verify that you are signed in with the Microsoft account used to redeem the product key.
3. Restart the Office application and try again.
4. Restart your computer and re-open Office.

License Not Found

If Office reports that no license is associated with your account:

1. Sign out of Office.
 2. Sign back in using the Microsoft account that redeemed the product key.
 3. Allow several minutes for Microsoft's licensing servers to synchronize.
